Partially completed draft accident form for OSC Steve Way based upon interview and fact gathering. Please feel free to tweak and/or adjust before adding your signatures.

Mr. Way had a kamikaze deer attack his GOV Expedition last night near Molas Pass, while he was enroute from the Gold King Mine to his hotel. Besides damage to the body of the vehicle and the deer fatality, there was no other property damage or injury associated with this incident.

Let me know if there are other ways I can assist with the paperwork burden here for Steve.

Approximately 1 mile south Molas Pass on the route from office in Silverton to Cascade Village room. Deer running from right into front quarter panel. Light assembly is damaged.
